---------------------------------------	--	---------------------------------------	---

Executive Summary

Your current financial health score is 30/100, which indicates a poor financial situation. This means you're facing challenges in managing your finances, and it's essential to address these issues to achieve stability. Your score suggests that you need to make significant adjustments to your spending and saving habits to get back on track.

Income & Cash Flow

You earned a total of ■64.5K, but your spending was ■87.5K, resulting in a deficit of ■23.0K. This means you're spending more than you earn, which is unsustainable in the long term. Your monthly trend shows that you spent ■87.5K in the last month, while earning ■64.5K, indicating a need to reduce your expenses or increase your income. Your current balance is ■6.6K, which is a relatively low amount considering your spending pattern.

METRIC	AMOUNT	NOTE
Total Income	■ 64.5K	All credits & salary
Total Spending	■ 87.5K	All debits & transfers
Net Flow	■ -23.0K	■ DEFICIT
Current Balance	■ 6.6K	As of latest transaction
Transactions	117	Total records analysed

Spending Analysis

Your top spending categories are UPI Person Transfer (■57.6K), Shopping (■19.7K), and Transport (■4.7K). The UPI Person Transfer category is unusually high, accounting for 65.8% of your total spending, which is a significant concern. This suggests that you may be making large transfers to others, which could be impacting your financial stability. You should review these transactions to ensure they are necessary and explore ways to reduce them.

CATEGORY	AMOUNT	% OF SPEND	BAR
UPI Person Transfer	■ 57.6K	65.8%	
Shopping	■ 19.7K	22.5%	
Transport	■ 4.7K	5.4%	
Food & Dining	■ 3.8K	4.3%	

■ **Step 4:** Allocate 20% of your income towards savings to build an emergency fund and improve your financial stability.
